Shoe Snippets

Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

In 1996, Cummings Properties saw an opportunity to breathe new life into the all-but-abandoned United Shoe Machinery Corporation site. Whereas many developers would likely have seen the neglected buildings as good candidates for a bulldozer, Cummings saw sound structures with historical significance and utilitarian beauty. A nationally acclaimed "recycling project," Cummings Center is the ultimate expression of Cummings Properties' desire to restore and enhance structures rather than demolish and rebuild them.
