Friendly Reminder

Fire Alarm Safety: In light of recent fire alarms, and at the request of Beverly Fire Department (BFD), we remind all client firms to remain alert to BFD vehicles and personnel in the event of a triggered alarm or a fire. Please also remain a safe distance from the building and stay clear of travel lanes to allow everyone to evacuate the building without hindering the efforts of the fire officials. Should such a fire or any other building evacuation emergency occur, wait for police or fire officials to announce that it is safe before re-entering a building. In the event that you

accidentally trigger an alarm, please remain present and communicate what occurred to the fire department.

Simple Smiles

Simple Smiles was created to help everyone start the week off learning, imagining, and smiling. We invite all MetroNorth News readers to submit photos of something or some place they find interesting, informative, or exciting. Please refrain from sharing photos that feature people.

Shoe Snippets

Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

The founding of United Shoe Machinery Company in 1899 marked the beginning of automation and standardization in the shoe industry. In its first decade of operations, USMC became one of the first three international companies in the country and one of only 10 companies with experimental research facilities.
